

## Not pedestrian traffic bearing flat roof, protection with mineral-surfaced cap sheet REFLEX

Flat roof RS 6.3.1 APP

1. **IZOTEKT REFLEX P4** or **IZOTEKT REFLEX P5**, torch applied bituminous membrane, fully torched over lower sheet
2. **IZOTEKT T4 PLUS**, torch applied bituminous membrane, partially torched on roof deck \*
3. **STIROTEKT L1** (**FRAGMAT EPS 100** one side laminated with bituminous cardboard) \*
4. **BITALBIT AL V4** or **BITALBIT SELF**, vapour barrier bituminous sheet, according to EN 13970
5. **IBITOL**, cold applied asphalt coat - primer
6. Load bearing still reinforced concrete construction (min. slope 2%)

\* instead of 2 and 3 we can use **STIROTEKT P3** (**FRAGMAT EPS 100** one side laminated with **IZOELAST P3**) in combination with **IZOELAST REFLEX P5**
