Hladilne in zamrzovalne komore

Cold rooms and freezers

Hladilnice so toplotno izolirani prostori, opremljeni z napravami za vzdrževanje primerne temperature in ostalih mikro-klimatskih pogojev. Uporabljajo se za shranjevanje blaga v:

- mesno-predelovalni industriji
- ribarnicah
- mlekarnah
- pekarnah
- gostinstvu
- skladiščih zmrznjenih živil
- skladiščih sadja in zelenjave
- cvetličarnah ter
- farmaciji in kozmetični industriji.

Cold stores are thermally insulated rooms equipped with devices for maintaining appropriate temperature and microclimate conditions. They are used for storing goods in:

- Meat-processing industry
- Fish-markets
- Dairies
- Bakeries
- Catering industry
- Tourist households
- Frozen food storage rooms
- Fruit and vegetable storage rooms
- Florist's shops
- Pharmacy and cosmetics industry

Glede na vrsto blaga je temperatura skladiščenja med -25 in $+15$ °C. Hladilna oz. zamrzovalna komora je lahko vgrajena v objekt ali pa postavljena kot samostojna enota ali mobilni kontejner.

Toplotna izolacija je izvedena s paneli ustrezne debeline z jedrom iz trde EPS pene in oblogo iz nerjavne pločevine, barvane cinkane ali barvane aluminijaste pločevine.

Vstopne odprtine zapirajo izolirana vrata iz nerjavne pločevine krilne ali drsne izvedbe, slednja so lahko opremljena z električnim pogonom.

Podjetje FRAGMAT Izolirka nudi celovite rešitve na področju gradnje hladilnih in zamrzovalnih komor, vključno z vso dodatno opremo, kot so transportni tiri, regali, kljuke itd., opravlja pa tudi vzdrževanje in obnovo starih hladilniških objektov.

The storing temperature varies from -25 to $+15$ °C, depending on the type of goods. Cold rooms and freezers can be built in a construction or set up as an independent unit or a mobile container.

Thermal insulation is provided by panels of proper thickness. Their core is made of solid EPS foam and clad with stainless, galvanised and painted or painted aluminium sheet metal.

Entrance openings have insulated wing or slide doors made of stainless sheet metal; slide doors can be driven electrically.

FRAGMAT Izolirka offers complete service in the field of freezing and cold store construction. Beside providing all the extra equipment, such as transport rails, shelves, hooks, etc., it maintains and restores old cold stores as well.
